Optional andirons are available in black on the Escape only.

## CONTROLS

### INTELLIFIRE APP

All the features of a remote control with an app installed on your smart device. Monitor your fire from anywhere or even control it with the sound of your voice. IntelliFire is compatible with voice assistants Amazon Alexa and Google Assistant.

### TOUCHSCREEN REMOTE

Features: on/off, flame height adjustment, fan speed, lights adjustment, thermostat mode, room temperature readout, child lock, timer mode, battery backup, cold climate mode, power vent, wall docking station (fan, lights and power vent are dependent on your fireplace).

### WIRELESS WALL SWITCH

Features: on/off, battery strength indicator, cold climate mode

## MULTI-SIDED TECHNOLOGIES

### INTELLIFIRE TOUCH IGNITION SYSTEM

IntelliFire Touch is our most advanced intermittent-pilot ignition (IPI) system, making operating your appliance simple, smart and safe. Select the IntelliFire app, touch-screen remote control or wireless wall switch for the solution that fits your lifestyle.

### DIRECT VENT TECHNOLOGY

With direct vent fireplaces and inserts, 100% of combustion exhaust and fumes are removed from your home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

### POWER VENTING TECHNOLOGY

Fireplaces aren't just for exterior walls. A fan-powered accessory with slim venting can zigzag throughout your home—up, down, over or under—making it possible to install a gas fireplace virtually anywhere. This ensures safe fireplace operation and the best flames. Check with your local hearth professional to determine if your home or fireplace could benefit from power venting technology.

Solutions to help you manage the heat throughout your house:

**HEAT-ZONE KIT** Reduce wall temperatures and redirect up to 50% of the heat from your fireplace to another room in your home.

**HEAT-OUT KIT** Redirect up to 40% of the heat from your fireplace and direct it outside for comfort year round.

**OPTIONAL FAN** Move heat directly into the room for added comfort.

### LED EMBER BED

Add an extra layer of dimension and light to your fire. Realistic illuminated embers let you enjoy the ambiance, with or without the fire.

### FADE-RESISTANT REFLECTIVE BLACK GLASS PANELS

A clean look that reflects the fire and never gets dull. For the life of your fireplace.

## EFFICIENCIES

**EnerGuide (CSA P.4.1-15)** EnerGuide is a rating used in Canada to measure annual fireplace efficiency.

Dimensions shown are in inches. Reference dimensions only. We recommend measuring individual units at installation. Assumes the use of 1/2" Sheetrock. NOTE: Non-combustible material is allowed over this dimension. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not true representation of the fireplace, flames and/or finishes.

#### LIMITED LIFETIME WARRANTY\*

The strongest in the industry, Heat & Glo® provides a limited lifetime warranty on the most important aspects: firebox and heat exchanger.

\*For full warranty details, go to [www.heatnglo.com](http://www.heatnglo.com). Fireplace glass and other surfaces get extremely HOT and can cause severe burns if touched. Do not remove the protective safety screen from the front of the glass. Keep a safe distance away. To learn more visit [www.heatnglo.com/fireplacesafety](http://www.heatnglo.com/fireplacesafety).
