

THE STRENGTH BEHIND THE PRODUCTS YOU TRUST

Pentair, a world's leading manufacturer of swimming pool equipment and accessories, has strengthened the commercial pool market with an outstanding group of products. With pumps, filters, heaters, controllers, sanitizers and lighting—and as an industry leader in deck equipment—Pentair Commercial Aquatics is your one-stop aquatic equipment manufacturer.

Pentair Commercial Aquatics has the innovation and stability you can trust. Our pool products are recognized for efficiency, dependability and environmental responsibility. Pentair has brought together the highest quality aquatic product lines available with energy-efficient performance, ease of operation and outstanding reliability. All products are backed by cutting-edge technology and one of the largest research and development teams in the industry.

Pentair Commercial Aquatics is an industry expert. Pentair will assist in all phases of the design process, whether you are planning a spectacular competition pool, a super-sized water theme park, or envisioning a unique aquatic environment. Equip your project with the products to make your vision a reality.

PUMPS

Pentair Commercial Pumps

Pentair Commercial Aquatics offers an innovative line of performance-driven pumps from 100 to 4,000 gpm to meet today's sophisticated water demands. With over 40 years of engineering excellence behind each pump, our experience results in a pump room that aids with peak performance and efficiency for commercial pools, aquatic facilities and water theme park applications. From the lightweight plastic EQ Series® Pumps, to the self-priming CSP Series™ Pumps and the high performance bronze C Series® Pumps, to the largest vertical turbines, Pentair has the pump for every specific application. Team our pumps with the Acu Drive XS™ Variable Frequency Drive to increase effectiveness and efficiency in the equipment room, resulting in increased savings and exceeding customer expectations.

FILTERS

Pentair Commercial Filters

Pentair Commercial Aquatics filters have provided years of effectiveness and efficiency. For years of dependable low maintenance for commercial pools, water theme parks and aquarium applications from 50-100 PSI, choose from the smaller Triton®, System:3® Filter, or THS Series® Commercial Filters, to the fully customized Stark 5S Series™ Systems. The Stark Series filters offer a wide variety of models with side-by-side or stacked units to accommodate limited equipment room space. Each filter is computer-wound with no joints or bladder to provide the highest degree of structural integrity, then coated with UV inhibitors to withstand all weather elements. Pentair can also include transparent ABS valve housings and covers, optional 24VAC re-programmable automatic or semi-automatic backwash controllers, and optional Para-Pump Pressure Booster Systems to provide consistent valve actuation.

AUTOMATION & SANITIZERS

Pentair Commercial Controllers

Pentair Commercial Aquatics has a full line of controllers to choose from that fit a variety of applications. The IntelliChem® Chemical Controller can work independently with ScreenLogic® Interface capability or in conjunction with other Pentair Automation products. And with BioShield® Commercial UV Disinfection and Water Conditioning Systems, instant protection against harmful waterborne pathogens, as well as up to 25% removal of Chloramines. Commercial IntelliChlor® Salt Chlorine generators provide a simpler safer way to add chlorine to your body of water and are compatible with other Pentair systems. Other Automation systems suited for HMAC are the IntelliCenter®, IntelliTouch®, and EasyTouch® Control Systems line of products

HEATERS

Pentair Commercial Heaters

PowerMax® and MegaTherm® Heaters by Pentair Commercial Aquatics provide peak performance, efficiency and easy maintenance for commercial swimming pools and theme park applications. Either heater offers reliable operation with natural or propane gas, electronic ignition and temperature control from 500,000 to 5 million BTUs. Both are packed with performance features, are easy to install and because we do all the work, they come “ready out of the box”. With 50 years of reliability in the design and manufacturing process, these heaters offer designer-trusted innovation to ensure long-life runs backed by an industry leader. MasterTemp®, Max-E-Therm®, and ETi® Pool and Spa Heaters provide greater flexibility in heaters up to 400,000 BTUs.

DECK EQUIPMENT

Pentair Commercial Deck Equipment

Paragon starting platforms are used in more competition pools than any other platform and are accepted by FINA, NCAA, NFHS, USMS and USAS events. The 1/4" polypropylene, no-skid cross-grooved sand finish top of the starting platform and high-grade corrosive resistant stainless steel frame allows for a more secure footing which aids in quicker starts, improving technique and performance. With customized dive towers, railings, lifeguard stations, ladders and rails, and AquaTRAM® ADA Compliant Pool Access Lifts, Pentair Commercial Aquatics offers a positive experience from specification through installation.
