SLIDE INTO FUN

For hours of serious sliding fun, look to S.R. Smith. Manufactured from high-quality corrosion-resistant material, S.R. Smith pool slides are engineered to deliver serious fun, season after season! From the towering Vortex® with its 19' corkscrew runway, to the removeable SlideAway with its big personality, we have a slide that will transform your swimming pool into a favorite destination for kids of all ages.

LET IT FLOW

S.R. Smith pool slides, with integrated water delivery systems, offer high-volume water fun for a slippery, sloshy ride. The 360 degree heliX2® slide has a patented water fountain feature positioned at the top of the slide that provides splashing good fun from top to bottom!

SALT POOL FRIENDLY

We know pool builders and consumers alike enjoy the benefits of salt chlorinator systems - that's why we've designed a line of products that perform well in salt pool environments. Our Salt Pool Friendly icon is your visual assurance that the most durable and salt friendly materials have been used in manufacturing.

POOL SLIDE SAFETY

All S.R.Smith Swimming Pool Slides are independently tested and verified to be fully CPSC compliant.

PROTECT YOUR BUSINESS: INSTALL CPSC COMPLIANT SLIDES

Protect your livelihood and ensure your customer's safety. Install slides that fully comply with the U.S. Consumer Product Safety Commission's (CPSC) Safety Standard for Swimming Pool Slides (16 CFR Part 1207). The CPSC is an independent government regulatory agency that exists to protect the public from risk of injury and death associated with consumer products. For more information, visit cpsc.gov.

CPSC STANDARD FOR SWIMMING POOL SLIDES 16 CFR PART 1207

The CPSC Standard requires passing 48 unique performance tests and outlines requirements concerning manufacturing construction and materials. The CPSC also makes recommendations regarding handling, storage, marking and installation. Swimming pool slides must meet all applicable standard requirements to fully comply.

CPSC TESTING

Sample Test RUNWAY EQUILIBRIUM
The slide trajectory is recorded by a marker that is attached to a weighted block, released from the top of the slide. This tests for a consistent slide path exit.

Sample Test WATER ENTRY
The path of the potential slider is digitally recorded by high speed video cameras. The data is analyzed to ensure the slider does not enter the water at an angle that is likely to cause impact with the bottom of the pool.

Sample Test DYNAMIC LOAD TEST
A 350 lb load is applied and the slide may not show signs of stress, and no visible deformation may occur.

Slide Placement Guidelines (Removable and Deck Mounted Slides)

The pool industry association has provided these guidelines for slide placement. Our slides can be mounted directly to the deck making retrofit applications easy (check with your inspector for local codes and guidelines). From the top of the ladder, a flume that curves down to the left is a left curve slide, and a flume that curves down to the right is a right curve slide.

Assemble. Install. Slide.

See how simple it is to assemble and install all of our deck mounted pool slides with our installation videos. Go to srmith.com or visit the S.R.Smith YouTube channel.

Please note the installation of this product should be done only by a licensed and professional installer. Installation should be done strictly in conformance with all local building codes, electrical codes and other building and all safety laws and regulations.

For more information on the standard, visit http://www.access.gpo.gov/hara/cfr/cfrn1207_04.html. To view S.R.Smith compliance documents, visit srmith.com/en/safety

The Safe Removable Pool Slide

Introducing SlideAway®, the safe removable in-ground pool slide from S.R.Smith. SlideAway combines safety, fun and durability in a slide that can be easily set-up and removed from the deck in just minutes. SlideAway is the first fully CPSC compliant pool slide that doesn't have to be permanently affixed to the pool deck.

Designed to resist fading, SlideAway is salt pool friendly and comes in colors that will compliment any outdoor living space. SlideAway is ideal for children up to 125 lbs. and will provide hours of splashing fun!

SlideAway® REMOVABLE POOL SLIDE

- First CPSC compliant removable and portable pool slide, meeting federal safety standards for 48 individual tests (Taupe and Gray)
- Available in colors to compliment the pool and patio areas
- Comes partially assembled and includes an easy to use dolly to roll SlideAway on and off the pool deck
- 3' x 67" deck space required
- Easy to set-up and store away in shed or garage
- Fully rotomolded construction provides strength and durability for years to come
- Enclosed, textured steps and integrated hand-holds for added safety
- Designed for children up to 125 lbs/57 kg
- Salt pool friendly
- Built-in UV inhibitors to resist fading
- Intended for in-ground residential swimming pools only
- Made in the USA

CREATE A UNIQUE BACKYARD RESORT

Give customers the pool of their dreams with a custom slide, Garden Ride, River Run and BYOS2 Slides are made using an advanced Resin Transfer Molding (RTM) process and coordinate with other RTM products. All pre-configured and unique custom slides are UV resistant, salt pool friendly and exceptionally strong and durable. For custom pool designs, provide your drawing to our technical experts and we'll work with you to make the vision a reality for your customer.

MINIMUM WEIGHT - MAXIMUM STRENGTH

Garden Ride, River Run and BYOS2 slides are made using a Resin Transfer Molding (RTM) process. RTM is an advanced manufacturing process that is used in a diverse range of applications from aerospace to automotive products. The RTM process creates a composite material that has a high strength to weight ratio – although lightweight, it is exceptionally strong and durable. RTM products offer a truly unique look that is salt pool friendly and UV resistant to protect colors from fading.

Build Your Own Slide (BYOS2™) Custom Slide

The Build Your Own Slide (BYOS2) provides easy, customized slide solutions to builders incorporating handcrafted rock work or water-park type designs into custom backyard settings. There are many colors and visual textures to choose from including many stunning granite colors that will blend well into any custom backyard design.
